-

1. What is your skin type

- White, never tans - LOW risk of scarring
- White, tans with difficulty - LOW risk of scarring
- White, tans gradually - MODERATE risk of scarring
- Brown, Mediterranean, tans with ease - MODERATE risk of scarring
- Dark Brown, Middle Eastern, tans easily – Not Suitable for Tatt2Away
- Black, never burns -- Not Suitable for Tatt2Away

2. Location of tattoo

- Head or Neck – Good candidate for Tatt2Away
- Upper Body – Good candidate for Tatt2Away
- Lower Body – Moderately good candidate for Tatt2Away
- Hand, Feet, Ankle – Generally not Suitable for Tatt2Away

3. Type of tattoo

- Amateur – Results may vary depending on what type of job was done!
- Professional – Good candidate for Tatt2Away

4. Has the tattoo ever been recoloured, or had a cover-up – Best results are achieved where no further work has been done on the tattooed area

5. Is there any evidence of scarring; Or do you have any keloid scarring? Any current evidence of scarring may indicate the area is not suitable for Tatt2Away

6. What colours are in the tattoo – Tatt2Away will remove ALL colours, even whites, all blues, and pinks

7. Have you ever had any laser removal treatments – Laser treatments may toughen the skin, and push the pigment deeper.
If so, how many. And how long since the last one. – More than 3 attempts with laser will generally leave the area unsuitable for Tatt2Away
However, a test patch could determine if you would be a suitable candidate

8. When did you get the tattoo – if it's a new tattoo, the skin needs at least 3 months before treatments can commence. .

9. Your age

10. Where are you? Sydney, Coffs Harbour or other?
